Re: ESQK Interim Administration System Release

Dear Chairman Koutsky,

The NeuStar Pooling Administrator, acting as the Interim Routing Number Authority Administrator (IRNA), announces the release of the new ESQK web-based system for administration and assignment of Emergency Service Query Keys (ESQKs).

Effective immediately, the IRNA is accepting new user registrations for the new ESQK web-based system. Beginning the week of November 6th, eligible registered users may begin requesting and receiving ESQK resources using the new system (pursuant to the terms of the pANI Interim Assignment Guidelines and the FCC letter, dated September 8, 2006).

Information regarding how to register and request ESQKs via the new ESQK web-based system is available in the "*ESQK User Guide*" located on the ESQK website at www.esqk.com under "Documents".

Any questions relating to the registration or the ESQK process can be referred to the ESQK customer support desk at 888-425-5234 or esqksupport@neustar.biz.

Sincerely,

Florence Weber
Regional Director, pANI Administration Service Center
NeuStar, Pooling
